Using Your Dental Plan

Early diagnosis and preventive care are vital in maintaining good dental hygiene, and regular dental care contributes to your overall health. UNICARE dental plans emphasize routine examination so that minor dental problems can be treated before more extensive problems develop. By taking advantage of your plan's benefits, you ensure your long-term dental health.

Once enrolled in a PPO Dental Plan, you can go to any dentist in our Provider Network and receive complete plan benefits or visit a dentist outside of the network.

When you use a participating dentist, you will benefit from services provided at rates that are substantially less than the dentists' usual billed fees. You may find that our extensive network includes your present dentist.

While it benefits you to use a dentist from our Provider Network, you may choose any dental care professional. Be aware that when you choose a dentist from outside the network, your out-of-pocket costs may be higher.
